

Winter Flight Time 2019

Registration: January 7-January 14

Classes: January 17-February 21

Around the World Club

Each week in Around the World Club, we will learn about a different culture through books, stories, crafts, short videos and lots of games! Come explore the world and appreciate people from all places, all from your own backyard! Grades K-1 Max:22

***Because of Ms. Nelson's Trailwood schedule, this class will meet on Wednesdays (January 16th-February 20)**

Ms. Nelson, TW Social Worker

Grades: K-1

Max:22

Breakout Club

Have you ever wanted to go to an escape room? This club is the school version of that. Instead of breakout out of the room, you will solve clues and puzzles in order to unlock locks on a series of boxes.

Mrs. Leftwich

Grades 3-6

Max: 25

Coding without Computers

When we think about teaching kids how to code, we automatically think we need a computer. In this class, I will share with students different activities that are off screen that teach students computer programming through games, activities and crafts! This class is designed for students. Come and join the fun and crack the code!

Mrs. Waters

Grades: 2-6

Max: 25

Game Club

Take a break from electronics and come explore games! Students will have the opportunity to learn and play an array of different games. While having fun, students will practice social skills, taking turns, fair play, thinking/logical skills, understanding and following rules and much more! Healthy snack included.

Mrs. Mellen

Grades: K-2

Max: 25

Hamilton—The man, the musical, what we can learn from his story

Dive into US history, the lasting impact on our national government and personal traits of one America's Founding Fathers who was truly Non-Stop! We will start with a celebration of Lin-Manuel Miranda—watching highlights from getting his Hollywood Walk of Fame Star, as well the Kennedy Center Honor Award, AND his returning to the role of A.Ham in Puerto Rico. We will also study the George Washington /Hamilton partnership One Last Time and learn more about Graham Windham, the Orphanage started by Eliza Hamilton which still helps youth today!

Mrs. Seamon
Grades 4-6
Max: 25

Harry Potter Club

Jump on the Hogwarts Express and experience a magical world in the Harry Potter club! Before our first meeting you'll receive your Hogwarts acceptance letter. Upon your arrival, you will be sorted into your Hogwarts house. During our time together, you will create your own unique wand, attend potions class where you'll brew your own slime potions, learn to play Quidditch, participate in a Harry Potter STEM challenge, and make your own enchanted pet!

Those who haven't read Harry Potter will still experience an amazing, magical time in this club!

Headmaster Combe
Grades: 2-6
Max: 30 Students

Just BEAD it.

Beads aren't just used for making bracelets and necklaces. We will explore many different ways to create with beads.

Mrs. Rawlston
Grade: K-4.
Max 20 kids

Painting Club

It's time to be creative! Students in the painting club will create masterpieces using watercolors, acrylic paint, canvas board, and other craft materials. Participants will get a chance to try several different styles of painting and will have a lot of fun in the process! Students will need a t-shirt they can keep at school and wear during our painting time.

Mrs. Beauchamp
Grades: K-6
Min: 10
Max: 30

Mrs. Chabon
Social Butterfly's Coloring Club

Students will have a relaxed environment to color and chat. Students will share about themselves and get to know the other students in the club. Questioning prompts will be provided in fun ways so that students are encouraged to answer questions and listen carefully while they relax and color. Students can bring in their own coloring pages or choose from a variety of samples, big and small.

Min:5

Max:20

Grades: K-6

Ms. Thompson
Stop Motion Animation Club

Stop motion animation is a filming technique in which objects are photographed in a series of slightly different positions so the objects seem to move. Students will use materials in the Maker Space and their iPads to create their film project! Students will have the chance to share their creation with others at our "viewing party" on the last day. No experience with stop motion is required.

Grades: 3-6

Max: 30

Location: Maker Space
